

## Play Structure Instructions

### PANELS - PLEXI

Plexi panels are inserted with special "U-clips".

"U-clip"

Plexi-Vertical

#### Up/Down Installation (Vertical)

- Assemble the structure frame as per plans
- **DO NOT LOCK IN ANY TUBES or PANELS IN THE AREA OF THE PLEXI**
- Insert special "U-clips" into "horizontal" tubes on both top and bottom
- Insert the plexi panel onto the bottom clips first
- Push down the pre-assembled top tube
- Close and lock in all the tubes

#### NOTE:

Those tubes which do not have U-clips should be turned to face a different direction away from the plexi. The screws from these "opposite" tubes will have to be locked in last

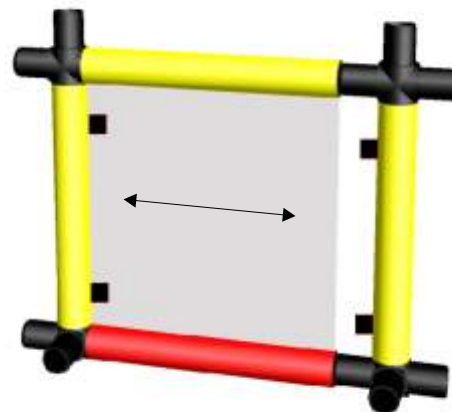

#### Side-to-Side installation (Horizontal)

- Assemble the structure frame as per plans
- **DO NOT LOCK IN ANY TUBES or PANELS IN THE AREA OF THE PLEXI** until assembly completed
- Insert special "U-clips" (white or black) into "vertical" tubes on both sides
- Spread vertical tubes slightly - if necessary
- Insert Plexi panel
- Close and lock in the "horizontal" tubes

#### NOTE:

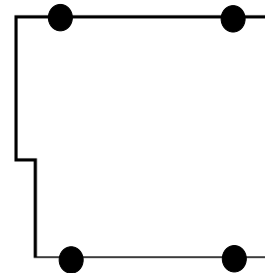

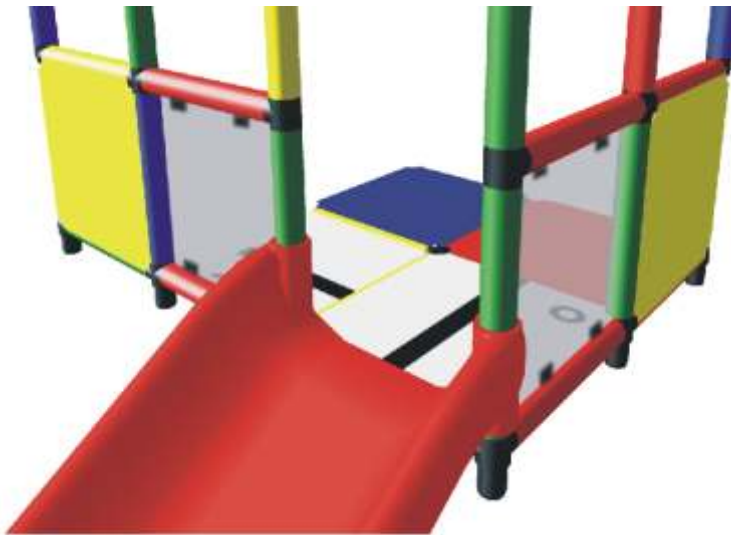

Those tubes which do not have U-clips should be turned to face a different direction away from the plexi. The screws from these "opposite" tubes will have to be locked in last

Plexi-Horizontal

# PLEXI P A N E L S FOR SLIDES

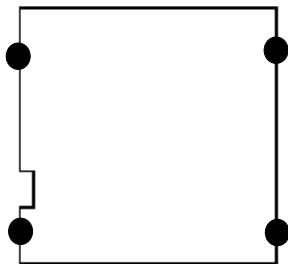

Please see separate slide instructions

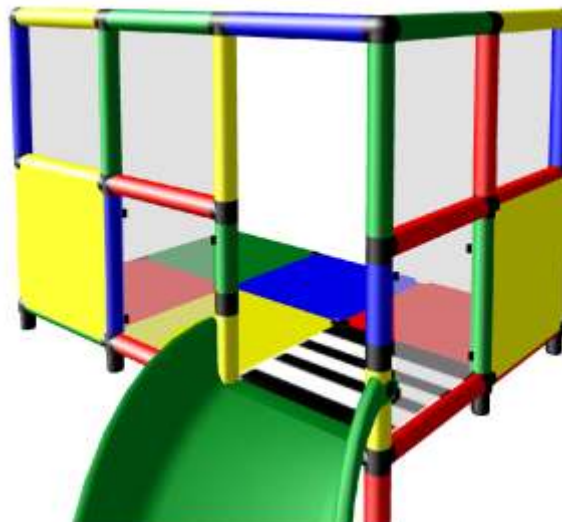

Plexi for straight slide

## Straight Slide

- Ensure platform panels are oriented as per the diagram (different for red/green slide)
- NO NOT LOCK IN ANY TUBES or PANELS IN THE AREA OF THE PLEXI
- Insert special "U" - shaped plexi clips into bottom "horizontal" tubes\
- Platform panels will have special ½ circle notches to accommodate the plexi clips
- Insert the Plexi panel onto the bottom clips first
- Drop in the pre-assembled top tube section (including top U-clips)
- Close and lock in all the tubes

Plexi for curved slide  
Special notch cut-out is  
only where the plexi is  
mounted perpendicular  
to the slide

## Curved Slide

- Ensure platform panels are oriented as per the diagram (different for red/green slide)
- NO NOT LOCK IN ANY TUBES or PANELS IN THE AREA OF THE PLEXI
- Insert special "U" - shaped plexi clips into side "Vertical" tubes
- Insert the Plexi panel onto the bottom clips first - then rotate up to the top clips
- Push vertical tubes together so plexi is well seated in the clips
- Close and lock in all the tubes
